ChargePoint CMS Suite Core Cloud Plan

Datasheet

2026

Features and Ordering Information

The ChargePoint® CMS Suite Core provides organizations a reliable foundation for managing EV charging with real-time station visibility, energy tracking, and RFID access control.

Core Cloud Plan Features

Category	Feature*	Description
Station Management	Station software updates	Stay updated with new features and performance enhancements delivered over-the-air. *Applicable only to ChargePoint Hardware
	Real-time station status	View real-time station status, driver details, power usage, energy costs, and driver revenue.
	Dashboard insights	Access and customize charts and reports on station usage, utility costs, environmental impact, and more.
	User management & administrative controls	Manage roles and permissions for ChargePoint CMS Platform users across multiple sites.
	Valet dashboard	Dedicated dashboard that notifies valet staff when cars are done charging so they can be moved.
	Sites and custom groups	Create custom station groups to simplify configuration and reporting across large install bases.
	Session limits	Set limits to energy dispensed, time, or state of charge per session.
Access Control	Set access hours	Control access hours and restrictions on public access.
	RFID-based access control	Link RFID access cards to specific vehicles in your organization.
Energy Management	Multi-level power sharing	Configure power sharing across circuits, panels, and sites with enforced load limits.
	Hierarchical power sharing	Configure power-sharing limits for parent and child station groups and keep charging load within each limit.
	Fixed power derating	Set a permanent maximum power limit. *Available for AC stations only.

Ordering Information

One ChargePoint cloud plan is required per port to activate a charging station on the ChargePoint network.

Description	Order Code
CMS Suite Core Cloud Plan for Level 2 AC	CP-SW-STE-CORE-AC-1P
CMS Suite Core Cloud Plan for Level 3 DC	CP-SW-STE-CORE-DC-1P
